

## RETRACTION

The Authors, Nicola Maffulli, Francesco Oliva, Antonio Oliviero wish to retract the article *Combined anatomic reconstruction of the anterior cruciate and anterolateral ligaments* [Muscles, Ligaments and Tendons Journal 2019;9(1):150-155]. In error, the preliminary artwork has been published. This impinged on the copyright held by JBJS Inc regarding the article (Saithna A, Thaunat M, Delaloye JR, Ouanezar H, Fayard JM, Sonnery-Cottet B. Combined ACL and Anterolateral Ligament Reconstruction. JBJS Essent Surg Tech. 2018 Jan 10;8(1):e2. doi: 10.2106/JBJS.ST.17.00045. eCollection 2018 Mar 28).

This was an oversight, and the authors apologise for it. As it can be seen in the article, the authors fully acknowledged the work by the French group, and widely cited it.

The publication *Combined anatomic reconstruction of the anterior cruciate and anterolateral ligaments* [Muscles, Ligaments and Tendons Journal 2019;9(1):150-155] is herewith retracted.
